

Tata Motors strengthens presence in Qatar with the launch of all-new LPO 1622 bus
Delivers superior performance, excellent passenger comfort and best-in-class total cost of ownership

Doha, 18 June 2025: Strengthening its commitment to delivering reliable and advanced mobility solutions in the Middle East, Tata Motors, one of the world's leading automobile manufacturers, along with its official distributor Al Hamad Automobiles, launched the all-new LPO 1622 bus in Qatar. Developed specifically for staff transportation, the company's first Euro VI-compliant bus in the Middle East offers superior performance, enhanced passenger comfort, and low total cost of ownership.

Commenting on the launch, **Mr. Asif Shamim, Head, International Business, Tata Motors Commercial Vehicles**, added, *"The Middle East continues to be a strategic focus for Tata Motors, where our products have consistently delivered value across a range of applications. With Qatar being a key market, we are pleased to further strengthen our presence with the launch of the all-new LPO 1622 bus, designed to offer higher profitability to customers and superior comfort to passengers. Supported by a strong and responsive after-sales ecosystem, we remain committed to delivering reliable, advanced mobility solutions tailored to evolving needs and requirements."*

Mr. Mohamed Yousef Al Mana, Chairman, Al Hamad Automobiles, said, *"We are proud to continue our long-standing partnership with Tata Motors and support the expansion of their commercial vehicle portfolio in Qatar. As a trusted partner, our focus remains on providing comprehensive after-sales support through our wide service network and easy availability of genuine spare parts. With dedicated teams and infrastructure in place, we are fully committed to ensuring maximum uptime, operational continuity, and long-term value for our customers across the country."*

The Tata LPO 1622 bus is powered by a reliable Cummins ISBe 5.6L Euro VI-compliant engine, delivering 220hp of power and 925Nm of torque. The bus is available in two seating configurations - 65-seater and 61-seater, offering flexibility for varied staff transport requirements. It features a full air dual-circuit braking system with ABS, tubeless radial tyres, and a heavy-duty suspension system to ensure safety, comfort, and road stability. The bus also comes equipped with a range of advanced features, including Electronic Stability Control, Hill Start Assist, Cruise Control, and a Multimode Switch to optimise performance across varied operating conditions. Together, with its durable aggregates, spacious and ergonomic seating, and low operating costs, the LPO 1622 bus is an ideal solution for fleet operators seeking long-term value, high uptime, and an enhanced passenger experience.

The company also unveiled an enhanced range of world-smart, Euro-V compliant Prima range of heavy trucks designed and engineered to suit the country's growing infrastructure and construction requirements. The range includes the advanced Prima 4040.K, Prima 4440.S, Prima 4040.T and the Prima 6040.S.

Tata Motors offers a wide commercial vehicle portfolio in over 40 countries, spanning sub-1-tonne to 60-tonne cargo vehicles and 9-seater to 71-seater mass mobility solutions. Backed by Tata Motors' advanced R&D capabilities, these vehicles are robustly engineered and rigorously tested to suit local market requirements.

About Tata Motors
